REMOTE PROGRAMS

Where expert care and technology meet

Physical distancing has changed the landscape for us all, but remote programs can bring us back together.

MCFI is now offering virtual programs for people with a developmental disability and those recovering from a brain injury.

These programs are not only for people who were previously in our programs, but for anyone who would like to join us now, no matter what their abilities or where they live. Microsoft Teams will be used, and people who participate must have a device such as a tablet, computer or phone and Internet access. Some on-line assistance is available.

The programs will focus on enhancing socialization, discussion and movement, and give participants a sense of structure and comfort. Some of the topics are: Art, Brain Games, Meditation, Mindfulness, Music Therapy, Current Events, Book Club, Yoga and Movement to Music.

Programming will be offered between 9 a.m. and 11:30 a.m. and 12:30 p.m. to 2 p.m. Mondays through Fridays.

Our core programs are accredited by CARF (the Commission on Accreditation of Rehabilitation Facilities), which demonstrates our commitment to offering programs and services that are measurable, accountable, and of the highest quality.

Our mission:
partnering with
people of all abilities
TO ADVANCE THEIR
total health.

“We can take a virtual tour anywhere you want to go, it doesn’t cost a penny, just time, which we all currently have with this pandemic. The best part is being together without being together, be social and have fun!”

PARTICIPANT

“He likes seeing everyone and talking, we appreciate what everyone is trying to do.”
